(Original release notes)

epilogue

This is my first release and it's a journey through some of the thoughts and experiences I have had in my life up to this point. Unfortunately none of the tracks have been mastered (i.e. making all the sounds, sound good). The reason for this is that I have not got the right gear. Hopefully the tracks will sound as good to u as it sounds to me on my earphones. ;)

trip the light fantastic

Look past your past
these adventurous undertakings
will define who you are
and prepare you
for the future

to whom it may concern

Life has been an amazing experience so far and I am very grateful for what I have been given. I'd like to thank all the people who contributed to this album, without which the album would not be complete. Thanks to my friends who make life so much more interesting and my parents, who have done so much for me. And finally, I'd like to thank God, who made all of this possible.

See ya later.
